SUMMARY

B.Tech graduate in Computer Science and Engineering (Data Science, 2026) with a strong foundation in Python, SQL, statistical analysis, and data visualization (Power BI, Excel). Experienced in building data-driven dashboards and recommendation systems, with hands-on exposure to database management, data cleaning, and reporting. Seeking a Data Analyst role to apply analytical thinking and technical skills to convert raw data into actionable business insights.

TECHNICAL SKILLS

Data Analysis: Python, SQL, Pandas, NumPy

Visualization and Reporting: Microsoft Power BI, MS Excel (PivotTables, VLOOKUP, Dashboards)

Databases: MySQL, Database Design, Oracle SQL

Web Development: HTML, CSS, JavaScript, Node.js

Developer Tools: VS Code, Git, GitHub, LaTeX

Soft Skills: Problem Solving, Teamwork, Communication, Time Management, Adaptability, Leadership

EDUCATION

Galgotias University, Greater Noida

2023 - 2026 (Graduated)

Bachelor of Technology (B.Tech), Computer Science and Engineering (Data Science)

Govt. Polytechnic College, Banka, Bihar

2020 - 2023

Diploma in Electronics Engineering

ParaMount Academy, Tarapur, Bihar

2019

10th, CBSE

PROJECTS

Business Sales Analytics Dashboard - 2026

- Developed an interactive Excel dashboard using Pivot Tables, Pivot Charts, KPI Cards, and Slicers to analyze business sales performance.
- Visualized revenue, profit, monthly sales trends, top products, customer segments, and state-wise sales through dynamic charts and maps.
- Enabled real-time filtering and reporting to support business insights and decision-making.

Mobile SIM Management System - Web Development Intern

- Contributed to web-based modules for SIM lifecycle management and customer data handling, including data entry, validation, and reporting features.
- Built responsive interfaces and integrated backend APIs to improve data accuracy and operational reliability.

COVID-19 Global Time-Series Analysis Dashboard

- Developed an interactive COVID-19 analytics dashboard using Microsoft Excel: Pivot Tables, Pivot Charts, KPI Cards, Maps, and Slicers.
- Analyzed global COVID-19 data across countries and continents, tracking total cases, deaths, tests, population, and vaccination trends.
- Created dynamic visualizations for time-series trends, Top 10 country rankings, geographical analysis, mortality, and vaccination correlation.
- Implemented interactive filters for Continent, Country, Month, and Year to enable dynamic data exploration and insight generation.

CERTIFICATIONS

- Database Programming with SQL, Oracle Academy - 2024
- Power BI Workshop, OfficeMaster - 2025 (Data Visualization, Dashboard Creation, Business Intelligence)
- Industrial Training: Mobile SIM Management, Nayara Energy Refinery Division - 2025
- AI Internship (4-week virtual), CodSoft - 2026
- CCNA: Introduction to Networks, Cisco Networking Academy - 2025
- Essentials of Microsoft Azure, DigiSaksham Program - 2025

ACHIEVEMENTS

- Career Edge - Young Professional, TCS iON - Jul 2025 (Communication, Presentation, Interview Skills, IT and AI Overview)
- Communication Skills Certification, TCS iON - Jul 2025
- Introduction to Soft Skills, TCS iON - Jul 2025
- Class Representative, B.Tech CSE (Data Science), Galgotias University - 2025 - 2026
